

Professional Profile

Godswill Aniedi Ekpe is a Microsoft Cloud Administrator, Cloud Solutions Enthusiast, and founder of Udy-Alpha Technologies, a startup dedicated to helping organizations embrace the modern workplace through Microsoft technologies and digital transformation.

He has over three years of hands-on experience delivering advanced administrative and technical support for enterprise Microsoft 365 environments, supporting organizations across North America, EMEA, and APAC regions.

His expertise spans cloud identity, collaboration, and productivity solutions, enabling businesses to modernize their operations and work more efficiently.

His journey into tech is driven by self-motivation and continuous learning, having transitioned from a non-technical background into a thriving career in cloud computing.

Beyond his technical work, he is deeply committed to mentoring and empowering the next generation of tech professionals, and to demonstrating how technology can unlock global opportunities.
